PREFACE

Des Editions Précédentes.

QUOI qu'il paroiſſe difficile de parler à l'avantage d'un Abbregé, cependant cét Epitome ne manque pas de raiſons pour ſe rendre recommandable : Car excepté les Phraſes, qui ne ſervent qu'à illuſtrer le ſens des mots, il a tous les Avantages que le Public a bien voulu remarquer dans mon DICTIONNAIRE ROYAL in *Quarto* ; ſur tout les differentes Acceptions des Termes, expliquées ſeparément & prés de cinq mille Mots qu'on ne trouvera point dans aucum autre Dictionnaire *Anglois & François* ; & de plus les Accens marquez ſur les Mots *Anglois :* Pour en faciliter la Prononciation aux Etrangers.

*L'*ACCENT *eſt ou l'Elevation ou la cheute de la voix*, ou *un ſon remarquable d'une des Syllabes des Mots que nous prononçons.* Il y a trois Accens, *l'Aigu* (´) Le *Grave* (`) & le *Circonflexe* (^).

L'Accent Aigu marque l'élevation de la voix dans ces Mots *admirable, contrary, Contributor*, &c.

L'Accent Grave marque la cheute, ou l'abbaiſſement de la voix, comme dans ces Mots, *adjùre, adò, conjùre*, &c.

L'Accent Circonflexe eſt composé des deux autres, & marque l'Elevation & la cheute de la voix dans même Syllabe, comme dans ces Mots *contrîve, backbîte* ; mais remarquez que la difference entre *l'Accent Grave & le Circonflexe* eſt ſi petite & ſi peu ſenſible en *Anglois*, que nous avons trouvé à propos de n'employer que le ſeul *Accent Grave.*

Vous devez auſſi remarquer que quelques Mots ont divers Accens pour exprimer leurs differentes Significations : Ainſi le Mot *Anglois, cónfident*, avec un Accent aigu ſur l'Antepenultiéme, eſt un Adjectif qui ſignifie *ſeur, certain, hardi, effronté.* Mais *confidént*, avec un Accent aigu ſur la derniere ſyllabe, eſt un Subſtantif qui veut dire *un confident, un depoſitaire*

The PREFACE

To Former Editions.

THO' it may ſeem a difficult matter to ſpeak in favour of an Abridgment ; *yet this Epitome does not want Reaſons to recommend itſelf : For excepting thoſe Phraſes which ſerve only for Illuſtration, it has all the Advantages which the Publick have been pleaſed to find in my* ROYAL Quarto DICTIONARY, *chiefly the different Acceptations of Terms diſtinguiſhed and explained, with near* 5000 *Words not to be met with in any other* French *and* Engliſh *Dictionary ; and the additional Accenting of all* Engliſh *Words, in order to facilitate their Pronunciation to Strangers.*

The ACCENT *is either* the Riſing or Falling of one's Voice, *or* a remarkable ſounding of one of the Syllables of the Words we pronounce. *There are three* Accents, *viz. the* Acute (´) *the* Grave, (`) *and the* Circumflex (^).

The Acute *denotes the Elevation of the Voice in the Syllable that bears it ; as in theſe Words*, ádmirable, cóntrary, contríbutor, *&c.*

The Grave *marks the Falling or Depreſſion of the Voice, as in theſe Words*, adjùre, adò, conjùre, *&c.*

The Circumflex *is a Compound of the other Two, and marks the Elevation and Falling of the Voice in the ſame Syllable, as in theſe Words*, contrîve, backbîte : *But Note, that the difference betwixt the* Grave *and the* Circumflex *is ſo very ſmall, and ſo unheeded in* Engliſh, *that we have thought fit to make uſe of the* Grave *only.*

You muſt alſo take notice, that ſome Words have different Accents *to expreſs different ſignifications. Thus* Cónfident, *with an* Acute *on the* Antipenultima, *is an* Adjective, *which ſignifies* ſure, *or* bold, *and in* French, ſeur, certain, hardi, effronté. *But* Confidént, *with an* Acute *in the laſt Syllable, is a* Subſtantive, *expreſſing a* Truſty Friend, *and in* French,

poſitaire dés ſecrets de quelqu'un. Et de même, *to conjùre* ſignifie *conjurer, ſupplier*; au lieu que, *to conjure*, veut dire, *Uſer de ſortileges, évoquer les Eſprits.*

Lors que vous trouvez deux *ee*, ou deux *oo* avec deux Accens (de cette mamere *éé, óó*) c'eſt une marque que ce ſont des Dipthongues, la premiere deſquelles ſe prononce comme la Voyelle *i.* on *François*, & l'autre comme la Dipthongue *Françoiſe*, ou, comme dans ces Mots *Agréée*, *Coóper*, qui ſelon la Prononciation *Françoiſe* ſe prononcent, *Agri Couper.* Mais lors qu'il y a deux *ee* ou deux *oo*, qui n'ont qu'un Accent, en ce cas la *ee* ou *oo*, ne ſont point Dipthongues, mais appartiennent à deux ſyllabes, & ſe doivent prononcer ſeparément, comme dans ces Mots, *Re-énter*, *Co-órdinate*, &c.

Enfin, remarquez que quelques Mots *Angloiſ* ont deux Accents comme *Coóperátion*, &c.

un Confidént. *And thus, to* conjùre *ſignifies to* intreat, *in* French, conjurer, ſupplier; *whereas to* cónjure, *ſignifies to uſe Witchcraft, in* French, uſer de ſortileges, évoquer les Eſprits.

When you find a double ee *or* oo *with two Accents (thus* éé, óó*) it ſhews that they are Dipthongs, the firſt of which is to be pronounced like the* French *Vowel* i, *and the other like the* French *Dipthong* ou, *as in* Agréé, Cóóper; *which, according to the* French *Pronunciation, muſt ſound* Agri, Couper. *But when there comes a double* ee *or* oo, *having but one Accent, then the* ee *or* oo *are no Dipthongs, but belong to two Syllables, and muſt be pronounced ſeparately, as in* Re-énter, Co-órdinate, *&c.*

Laſtly, *Note, that ſome* Engliſh *Words have two Accents; as,* Coóperátion, *&c.*

AVERTISSEMENT touchant la cinquieme Edition.

LA cinquiéme Edition de cet *Abbregé* a été reveüe avec ſoin par l'Auteur, qui outre la Correction de pluſieurs Fautes d'Impreſſion eſſentielles, qui s'étoient gliſſées dans l'Edition précédente, a ajouté plus de 600 Mots nouveaux à la Partie *Angloiſe*, & environ autant a la *Françoiſe.*

ADVERTISEMENT about the fifth Edition.

THE Fifth Edition of this Abridgment *has been carefully reviſed by the Author; who, beſides the correcting of ſeveral material Errors that had crept into the former Impreſſion, has added above* 600 *new Words in the* Engliſh *Part, and about as many in the* French.
